

Introduction to the Ascended Masters

Presented by Noorah Hansen

An Ascended Master is a being who has raised his/her vibration to a sustained frequency of light. They have made their ascension from humanity and now turn and help individuals to raise their vibration.

Ascended Master Consciousness is a state of consciousness which knows mastery and the means of attaining it. The Masters are an extension of yourself and in calling to them you are receiving a masterful part of yourself.

Each Master offers unique qualities which can be embodied by their direct transmission and you feel at *One* with them.

"The class made the Masters more real to me and I started to feel their different energies. I rely on them now for healing energy to come thru me. I am a vessel for their love." L.D., Idaho
